

Blocker Ring Basic (BRB)

*micro***GROOVE**

Robust

Hohe Festigkeit und geringer Verschleiß

- Ganzstahling
- 90% weniger Verschleiß
- geringe Wärmedehnung

Zuverlässig

Fertigungsqualität auf höchstem Niveau

- Netshape Umformtechnik
- 100% Eigenfertigung
- 100% automatisiert

Wirtschaftlich

Prozesse und Material optimiert

- ohne spanende Bearbeitung
- Großserienfähigkeit
- günstige Materialkosten

HOERBIGER

because performance counts

Blocker Ring Basic (BRB)

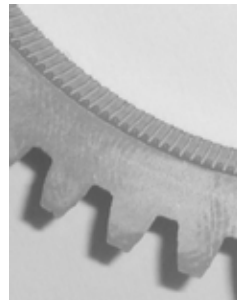

*micro***GROOVE**

Robust

Concentration on strength and wear resistance

- all steel design
- 90% less axial wear
- low thermal expansion

Reliable

Production process assures consistently good quality

- robust tooling concept
- 100% in-house production
- 100% automated manufacturing

Competitive

Excellent cost structure thanks robust material price basis

- production costs optimized due to 100% forming process
- ideal for high volume production
- independent of nonferrous material price development
